

Milling and Turning

for Industrial Applications

As a full service machine shop, Berry Metal Company can furnish the raw material or machine your material to include, but not limited to, steel, brass, stainless, copper, aluminum, and nickel as requested. We can also accommodate special or custom jobs such as large and small mill and lathe work, cutting, and polishing.

Berry Metal Company has a diverse engineering group that can visit your facility or plant, take the required dimensions, create our own machining details, and provide a full-service part.

Berry Metal Company offers:

- Precision machining that meets our customers' specifications and tolerances
- Machining of very large and complex fabrications
- Large size CNC and conventional machining
- Full Quality Control and Quality Assurance testing
- Milling, drilling, bending, cutting
- High production runs
- ISO 9001:2000

Manual Lathes

Caster Mold Plate

5-Axis Horizontal Boring Mill

Multi-Axis CNC Lathes

2408 Evans City Road
Harmony, PA 16037-7799 U.S.A.
1.724.452.8040
1.724.452.4115 fax

Our equipment for milling includes:

SNK Ikegai Horizontal 5-Axis Boring Mill

Travel: 137" x 98" x 63"
W-axis 27.5" travel for deep bore capability

Johnford CNC Vertical 3-Axis Machining Center

Travel: 162" x 90" x 42"

MAZAK H630 6-Axis

Travel: 29" x 20" x 37"
7 pallet capability for high quantity production runs
Precision to .0001" on all 6-axis
.500" – 2.250" contour boring capability

MAZAK H630 5-Axis

.500" – 2.250" contour boring capability

Our equipment for turning includes:

(2) MAZAK Quick Turn 40 2-Axis Lathes

20" diameter 39" long
Precision to .0001" on 2-axis

MAZAK Integrex 300-IV 5-Axis Lathe

30" diameter 59" long
225 degree milling tool movement
9.00" Y-axis travel
12000 milling RPM capability

Daewoo CNC Lathe with Live Tooling

22" diameter 80" long

We take great pride in delivering quality parts on time at a competitive price.
We work hard to develop and maintain long-term relationships with our customers.
We offer project management, scheduling, and engineering services.
We know that our success is dependent upon the success of our customers!
