

Berry Metal unveils new look for company logo.

Berry Metal Co. has just pulled the wraps off their new and updated corporate logo. The new logo is a more stylized version of the mark that has proudly served the company for the past 70 years.

"Our new logo has morphed to become more modern and more representative of our leadership role in furnace technology for steelmaking and ironmaking," said George Boy president. "While Berry built our reputation as the leader in lance technology, we have become so much more than that for our customers, so we felt it was time to update the look and feel of our logo. We hope you like it.

Berry Metal Company is a leading provider of furnace technology for steelmaking and ironmaking. Their goal is to provide customers the latest technology to improve efficiency, lower operating costs, and increase throughput in the steelmaking and ironmaking process. <https://www.berrymetal.com>
