

SUPERCHARGE YOUR EAF INJECTION TECHNOLOGY

Improve efficiency, lower operating costs and increase throughput with Berry Metal.

LIME INJECTION

- Injection rates up to 1200 lbs./min
- Sizing from dust to 1 ½" without clogging
- Flexibility in sizing and sourcing
- Reduced downtime, maintenance
- Eliminate lime waste on plant floor and out fourth hole

CARBON INJECTION

- Increased foamy slags
- Yield improvement
- Reduced power on time
- Reduced energy consumption
- Improved electrode consumption

INNOVATION: Partnering in solutions you can trust.

ISO:9001 CERTIFIED
