

## **BERRY METAL INCREASES EAF ROOF CAMPAIGN LIFE, REDUCES DOWNTIME FOR SPECIALTY COPPER FACILITY.**

Berry Metal has delivered a third EAF Roof to a specialty copper facility. The first of these three innovative Roofs was delivered in 2015 and is still used in operation.

Berry Metal has continued to work closely with Operations and Maintenance Teams at the End User on continuous improvement of the designs to increase campaign life cycles, reduce maintenance downtime and make maintenance tasks related to the Roof safer.

“Innovation and safety are not just words at Berry Metal. It is what we do”, says George Boy, President and CEO of Berry Metal Company.

**Berry Metal Company** is a leading provider of furnace technology for steelmaking and ironmaking. Their goal is to provide customers the latest technology to improve efficiency, lower operating costs, and increase throughput in the steelmaking and ironmaking process. <https://www.berrymetal.com>
